

EXAM ROOM CARTS

The Ecleris Bedside Cart is a compact design ideal for working in close quarters, i.e. by the patient bed or in a small exam room. This cart can easily be configured for different purposes: Endoscopy, Balloon Sinuplasty, Stroboscopy and others. It can accommodate: Procam Cameras, Everlux Light Sources, LED Stroboscope, Endodigi documentation system, Slim Line computer, Keyboard, Endoscopes (Flexible and Rigid) and up to a 22" Monitor. The configuration is flexible according to the application.
